Work Experience

- 2007 – ongoing Lead Developer, Consumer Intelligence, Bristol**
Following a period of Contracting with Consumer Intelligence, I accepted a Lead Developer position, as part of a specialised programming team. The team's primary role is focused around Automated Internet Data Acquisition and Analysis. This involves both Web and Windows C#/MySQL Application development.
- The job is very interesting, and often challenging; time management, an intense attention to detail and a drive to hit tight deadlines are key parts of my role.
- 2003 – 2007 Internet Solutions Programmer, KC3**
Working successfully full time during University vacations, and remotely part time during semester whilst studying for my degree at Cardiff University. I have vast experience developing and maintaining commercial web applications including the development of KC3's flagship "ACMS" content management system.
- My experience also includes the development of e-Gov Web Sites, various extranet systems for different community sectors as well as more specific small scale sites and internal systems. I have worked on projects throughout the entire spectrum of the development lifecycle. More detail is in my portfolio and the skills section.
- 2002 – 2003 Junior Web Developer, KC3 (Full time)**
On completion of my STEP, KC3 offered me a full time job, as described in my Skills sections, below.
- Summer 2002 Work Placement Project, KC3**
Completed 8 Week STEP (Shell Technology Enterprise Project) working for KC3, designing and implementing a Web Server Log Analysis Application.

Education

- 2003 - 2006 Cardiff University**
Computer Science
BSc Hons 2:2
Modules include: *Database Management, Programming Principles & Paradigms, Computer Security, Advanced Object Oriented Systems, Machine Vision, Distributed Systems Technologies, Image Processing, Graphics, Multimedia, Information Systems Management, Systems Design & Group Project, Internet Computing, Software Engineering, Component Software Development, Object-Oriented Methods, Communication Skills and Project Management.*
Final Year Project – "An Interpretive Web Interface and Data Manipulation for Intelligent Visual Monitoring Systems in a Scientific Environment"
Obtained a "**First**" class grade for my final year project.
- Academic Year Cardiff University**
2001-2002
Computer Systems Engineering BEng
Attended year one Computer Systems Engineering at Cardiff University (changed course after STEP program and one year deferral to work at KC3)
- 1999- 2001 John Beddoes 6th Form, Presteigne, Powys.**
A-Level
B Computing, D Mathematics, D Physics
- 1999 John Beddoes High School, Presteigne, Powys.**
GCSE
3A* 3A 3B

Technical Skills

- Main Languages**
- ASP.NET (C# including AJAX Control Toolkit), ASP, VB.NET, PHP, SQL, ColdFusion, VB6, JavaScript, HTML & CSS
- Other Languages**
- Perl, Lingo, Prolog, Python, Java J2SE
- Applications**
- Microsoft Visual Studio (including Microsoft SourceSafe)
 - Macromedia Studio – especially Dreamweaver and Fireworks
 - Microsoft Office
 - Macromedia Director
 - Microsoft IIS for windows servers
 - Plone (including Zope management interface and product creation)
 - Actinic Ecommerce systems
- Database Development**
- Microsoft SQL Server
 - Microsoft Access
 - MySQL
 - Oracle

Skills

I have gained a broad scope of knowledge, due in part to my Degree course, and also due to my industry experience. I have experienced both open source and commercial systems, and am familiar with Linux based systems as well as Microsoft environments.

- Courses**
- Attended "OpenAdvantage" residential Plone Content Management System Course (2004)
 - Project management skills refined during 4 week Business and Project management course at Cardiff University
- Specific**
- Experienced at conforming and adhering to guidelines and minimal quality standards defined by EN BS ISO9001:2000
 - Debugged and tested software/Web applications, ensuring a minimum standard of quality, and performing function and integrity testing
 - Built (Microsoft environment) web servers
 - Worked on a technical support line, working under pressure to help (often totally inexperienced) clients with any problems that arise
- General**
- Proven aptitude for working both independently and as a confident and proficient member of a team
 - Have proven responsibility and ability to manage and support colleagues, including foreign students and work experience staff
 - Technical report and essay writing skills developed as part of my degree scheme
 - Worked remotely for numerous Companies, in a position of great responsibility
 - A good grasp of programming fundamentals and I am a quick and determined learner and value myself as flexible and adaptable to new situations
 - Proven responsibility for groups of students and young children, and inexperienced individuals
 - Wide experience of Word processing, Database, Spreadsheet packages and skilled at typing - successfully completed Touch-Typing Course (1996)

Interests & Hobbies

- Music**
- A keen interest in local bands
 - Enjoy playing guitar
